

About 1 SOURCE

Founded in 1999, and with several years experience in the recruitment industry, 1 Source is committed to offering a service based on excellence to both employers and candidates alike.

We specialise in the recruitment of project and operational management (in a variety of disciplines), financial/accounts, business development and administrative personnel, including legal secretaries - we supply both permanent and contract/temporary staff.

For employers: As a company, we have made the conscious decision to service a small client base as we can provide a professional, focussed and personalised service by doing this. We are also very competitive in fee terms.

For candidates: Whether you are applying for a specific position or would just like to discuss the potential opportunities available to you in Ireland, we are happy to discuss the options and have a policy of meeting with any candidates who wish to discuss their career aims with us.

In other words, we believe in building relationships, rather than just making 'placements'.

1 Source Recruitment works directly with companies and candidates to find the right fit between the two at every level. A considered alternative to the 'body shop' approach of many, 1Source not only interviews formally but actually meets candidates and companies to build an understanding of aspirations.

We successfully place candidates in permanent and contract positions within a core group of customer companies and provide ongoing support and back up to the process as required.
